

Blackmagic Camera for Android

Blackmagic Camera unlocks the power of your Android Phone or Tablet's video camera by adding Blackmagic's digital film camera controls and image processing! Now you can create the same cinematic 'look' as Hollywood feature films. You get the same intuitive and user friendly interface as Blackmagic Design's award winning cameras. It's just like using a professional digital film camera! You can adjust settings such as frame rate, shutter angle, white balance and ISO all in a single tap. Or, record directly to Blackmagic Cloud in industry standard files up to 8K! Recording to Blackmagic Cloud Storage lets you collaborate on DaVinci Resolve projects with editors anywhere in the world, all at the same time!
