Add tally to your ATEM switcher with Blackmagic Design's GPI and Tally Interface! With 8 contact closure tally outputs, you can send a tally signal to your cameras, replay machines and monitors so everyone knows which camera is 'on-air'! If you need more tally outputs, simply connect multiple GPI and Tally Interfaces together because it connects via Ethernet to your ATEM production switcher.

$495

Connections

**Contact Closure**
25 pin D-type connector providing 8 opto isolated inputs and 8 relay contact closure outputs.

**Computer Interface**
1 x USB 2.0 high speed interface for configuration and firmware updates.

**Inputs**
Optical isolators triggered by connection to ground. Max 5V at 14mA.

**Outputs**
Mechanical relay contact closure to ground. Max 30V at 1A.

**Ethernet**
10/100 BaseT with loop through for connecting to other ethernet enabled equipment.

Software

**Software Included**
Configured via ATEM Switcher Utility.

**Internal Software Upgrade**
Firmware built into software driver. Loaded at system startup or via updater software.
Operating Systems

Mac 10.14 Mojave, Mac 10.15 Catalina or later.

Power Requirements

**Power Supply**
12V power supply included with international socket adaptors for all countries.
