Blackmagic URSA Mini SSD Recorder lets you record Blackmagic RAW or ProRes files onto standard 2.5" SSD Media with your URSA Mini Pro camera! That means you can use commonly available and inexpensive high capacity solid state media! The SSD media can record full resolution 4K and 4.6K 12-bit RAW files. Plus, SSD media comes in much larger sizes so you can record longer without having to change cards!

$395
