Fairlight Desktop Console

Fairlight Desktop Console is an audio mixing control surface that allows you to mix multiple tracks at once! You get a familiar mixer design with 12 motorized faders, touch sensitive encoder knobs and illuminated buttons. The faders are extremely smooth to move and provide the perfect amount of resistance, allowing subtle adjustments. The console's controls can be used for functions including pan, solo, mute, dynamics, EQ, plug-in parameters and more. Each channel strip LCD displays meters, panning, track name and more. An HDMI output gives you instant graphic feedback for all channels, bus and effects from the desktop console.

$3,139

Connections

**Computer Interface**
- USB Type-C.

**Ethernet**
- Ethernet supports 10/100/1000 BaseT.

**HDMI Video Output**
- 1 x HDMI Type A.

**Updates and Configuration**
- 1 x USB Type-C for software configuration and software updates.
