Ultimatte 12 HD

Ultimatte 12 HD is an advanced real time compositing processor designed for keying live action video with next generation broadcast graphics, virtual sets and more. Ultimatte 12 HD features new algorithms and color science, incredible edge handling and color separation, amazing color fidelity, and better spill suppression than ever before. The high performance 3G-SDI design gives you the power to work in HD with sub pixel processing for an amazing image.
