

# ATEM 1 M/E Advanced Panel 30

The ATEM 1 M/E Advanced Panel 30 features a single M/E row, 30 input button design that is ideal for switching big productions from desk surfaces that are not deep enough for a bigger panel. It has 3 independent system control LCDs plus it can control up to 4 M/Es in larger switchers. All input buttons include LCDs for custom labeling and it also includes an independent select bus! Dual power inputs provide redundancy and the built-in 4 port Ethernet switch means no additional network equipment is needed so it will fit even the most challenging live production spaces!

63 350 kr

## Connections

### Ethernet

4 x 10/100/1000 BASE-T with loop output for additional control panels or computers.
